Highpower International Reports Unaudited First Quarter 2018 Financial Results

SAN DIEGO, CALIFORNIA and SHENZHEN, China, May 11, 2018 /PRNewswire/ -- Highpower International, Inc. (NASDAQ: HPJ) ("Highpower" or the "Company"), a developer, manufacturer, and marketer of lithium ion and nickel-metal hydride (Ni-MH) rechargeable batteries, battery management systems, and a provider of battery recycling, today announced its financial results for the first quarter ended March 31, 2018.

First Quarter 2018 Highlights (all results compared to prior year period)

- Net sales for the first quarter of 2018 increased by 18.9% to \$49.8 million from \$41.9 million. Excluding the impact of Ganzhou Highpower Technology Co., Ltd. ("GZ Highpower"), net sales increased 24.1% to \$49.8 million from \$40.1 million.
- Lithium business net sales increased 33.1% to \$36.6 million from \$27.5 million.
- Gross margin decreased to 15.2% of net sales compared to 23.7%. Excluding GZ Highpower, gross margin was 15.2% compared to 23.3%.
- Net loss attributable to the Company was \$1.1 million, or loss of \$0.07 per diluted share, compared to net income attributable to the Company of \$2.5 million, or earnings of \$0.17 per diluted share. Excluding GZ Highpower, net loss attributable to the Company was \$1.1 million compared to net income attributable to the Company of \$2.3 million.

Recent Event

- On February 28, 2018, the Company signed an investment agreement (the "Agreement") with an aggregate amount of RMB4.9 million (approximately \$0.8 million) for 49% of the equity interest of Shenzhen V-power Innovative Technology Co., Ltd ("V-power"). Pursuant to the terms of the Agreement, the Company shall complete the capital injection to V-power no later than December 31, 2018. V-power focuses on the development of electronic vehicle battery management systems ("EV BMS"), in the future V-power will gradually extend the business to the design and production of EV power modules, energy storage systems ("ESS"), and related products.

Mr. George Pan, Chairman and CEO of Highpower International, commented, "Despite the ongoing industry challenge of high raw material prices, we are pleased to beat our top-line guidance for the first quarter, driven by continued strong growth in our lithium business. During the quarter, we continued to focus on our core lithium products, such as by attending the 2018 International Consumer Electronics Show (CES) in Las Vegas, where we showcased our advanced rechargeable battery products for notebooks, smart phones, wearable devices, smart house appliances, portable power stations, and other digital products. We also increased our R&D efforts in order to fine-tune and develop new technologies that improve product safety and reliability as well as to provide solutions that fulfill the innovations of our international customer base."

“While we continue to face industry cost headwinds, we are committed to improving our production efficiency and maintaining an efficient supply chain. As always, we remain focused on sustainable growth and on providing clean, safe, and efficient power solutions to meet society’s needs,” Mr. Pan concluded.

First Quarter 2018 Financial Results

Net Sales

Net sales for the first quarter of 2018 increased 18.9% to \$49.8 million from \$41.9 million in the prior year period. The increase was driven by sales of the Company’s lithium business, which grew 33.1%, or \$9.1 million, during the quarter. Excluding the impact of GZ Highpower, net sales increased 24.1% to \$49.8 million from \$40.1 million.

Gross Profit

Gross profit for the first quarter of 2018 decreased 23.8% to \$7.6 million from \$9.9 million in the prior year period due to high raw material prices. Gross margin for the first quarter of 2018 was 15.2% compared to 23.7% in the prior year period. Excluding GZ Highpower, gross margin was 15.2% compared to 23.3%.

Operating Expenses

- ***Research and development (R&D) expenses*** for the first quarter of 2018 were \$2.6 million compared to \$1.8 million in the prior year period. As a percentage of net sales, R&D expenses increased to 5.1% from 4.3% in the prior year period due to the Company’s continued investments in R&D.
- ***Selling and distribution expenses*** for the first quarter of 2018 were \$2.0 million compared to \$1.6 million in the prior year period. As a percentage of net sales, selling and distribution expenses increased to 4.0% from 3.9% in the prior year period, remaining relatively stable.
- ***General and administrative expenses*** for the first quarter of 2018 were \$4.1 million compared to \$3.1 million in the prior year period. As a percentage of net sales, general and administrative expenses increased to 8.3% from 7.3% in the prior year period. The increase was due to an increase of the provisions for the Company’s incentive plan.

Net Income

Net loss attributable to the Company for the first quarter of 2018 was \$1.1 million. During the prior year period, the Company achieved a net income attributable to the Company of \$2.5 million. Net loss attributable to the Company per diluted share for the first quarter of 2018 was \$0.07 compared to a net income attributable to the Company per diluted share of \$0.17 in the prior year period. Excluding GZ Highpower, net loss attributable to the Company was \$1.1 million compared to net income attributable to the Company of \$2.3 million in the prior year period.

For the quarter ended March 31, 2018, the Company's weighted average diluted shares outstanding used in computing diluted share was 15,509,658.

EBITDA

EBITDA for the first quarter of 2018 decreased 88.2% to \$0.6 million from \$5.0 million in the prior year period.

A table reconciling EBITDA to the appropriate GAAP measure is included with the Company's financial information below.

About Highpower International, Inc.

Highpower International was founded in 2001 and produces high-quality Nickel-Metal Hydride (Ni-MH) and lithium-based rechargeable batteries used in a wide range of applications such as electric buses, bikes, energy storage systems, power tools, medical equipment, digital and electronic devices, personal care products, and lighting, etc. Highpower's target customers are Fortune 500 companies and top 20 companies in each vertical segment. With advanced manufacturing facilities located in Shenzhen, Huizhou, and Ganzhou of China, Highpower is committed to clean technology, not only in the products it makes, but also in the processes of production. The majority of Highpower International's products are distributed to worldwide markets mainly in the United States, Europe, China and Southeast Asia.

Use of Non-GAAP Measures

The Company has supplemented its reported GAAP (generally accepted accounting principles) financial information with non-GAAP measures. EBITDA was derived by taking earnings before interest expense (net), taxes, depreciation and amortization. The presentation of this additional information is not meant to be considered in isolation or as a substitute for results prepared in accordance with U.S. GAAP. The Company believes this non-GAAP measure is useful to investors as it provides a basis for evaluating the Company's operating results in the ordinary course of its operations. This non-GAAP measure is not based on any comprehensive set of accounting rules or principles. The Company believes that non-GAAP measures have limitations in that they do not reflect all of the amounts associated with its results of operations as determined in accordance with U.S. GAAP and that these measures should only be used to evaluate the Company's results of operations in conjunction with, and not in lieu of, the corresponding GAAP measures. EBITDA is reconciled in the accompanying table to the most directly comparable measure as reported in accordance with GAAP.

Forward Looking Statements

This press release contains "forward-looking statements" within the meaning of the "safe-harbor" provisions of the Private Securities Litigation Reform Act of 1995 that are not historical facts. These statements can be identified by the use of forward-looking terminology such as "believe," "expect," "may," "will," "should," "project," "plan," "seek," "intend," or "anticipate" or the negative thereof or comparable terminology. Such statements involve known and unknown risks, uncertainties and other factors that could cause the Company's actual results to differ materially from the results expressed or implied by such statements, including, without limitation, fluctuations in the cost of raw materials; our dependence on, or inability to attract additional, major customers for a significant portion of our net sales; our ability to increase manufacturing capabilities to satisfy orders from new customers; our ability to maintain increased margins; our dependence on the growth in demand for smart wearable devices and energy storage systems, and other digital products and the success of manufacturers of the end applications that use our battery products; our responsiveness to competitive market conditions; our ability to successfully manufacture our products in the time frame and amounts expected; the market acceptance of our battery solutions, including our lithium ion batteries; and our ability to continue R&D development to keep up with technological changes. For a discussion of these and other risks and uncertainties see "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's public filings with the SEC. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, there can be no assurance that such expectations will prove to be correct. The Company has no obligation to update the forward-looking information contained in this press release.
